*Irresistible?
It's gotta be*

The silk and glamour of 30s & 40's Classics and the fantastic charm and character of heavy-weight talents are really something to remember.

There's also something here to meet every mood. Whether upbeat or simply nostalgic music: romantic ballads, swing tunes, rhythmic novelties, vocal numbers, swing specialities and period ditties. Unbeatable music!

Take a sentimental journey back in time—music and melodies for you enjoy.
